GOWTHAM G B

Full Stack Developer | React · Node.js · Express · MySQL
8489966821 | gbgowthamg@gmail.com | linkedin.com/in/gbgowtham

SUMMARY

Full-stack developer specializing in React.js and Node.js, with hands-on industry experience building an e-commerce platform end-to-end — REST APIs, JWT authentication, and MySQL schema design. Built and debugged user-facing features as part of a 4-person engineering team, beyond academic coursework. Quick to learn new technologies and comfortable developing features across the API and UI layers.

TECHNICAL SKILLS

Frontend: React.js, JavaScript (ES6+), Tailwind CSS, HTML5/CSS3, Responsive UI Design

Backend: Node.js, Express.js, RESTful API Design, JWT Authentication, PHP

Database: MySQL, SQL, Relational Schema Design

Tools & Workflow: Git, GitHub, VS Code, Postman, Code Review

Also Familiar With: Python, C, Figma, WordPress, ESP32-CAM / Arduino (IoT)

EXPERIENCE

Full Stack Web Developer Intern | *Aug 2025 – Dec 2025*
Muthu Soft Labs Pvt Ltd

- Built BookOrder, an online book-ordering platform using React.js, Tailwind CSS, Node.js, Express.js, and MySQL, from wireframe to deployment.
- Designed and shipped 20+ REST API endpoints covering authentication, cart, orders, addresses, and order tracking.
- Implemented JWT-based authentication and a 4-stage order tracking workflow: Placed → Processing → Shipped → Delivered.
- Built core commerce features including book browsing, category filtering, product detail pages, and cart/checkout flow.
- Worked in a 4-person development team through daily standups, PR-based code review, and manual + Postman-based API testing.

PROJECTS

AI-Based Student Academic Assistant | *2024*

- Designed and built a full-stack student portal using HTML, CSS, JavaScript, PHP, and MySQL, unifying attendance, internal marks, timetable, and study materials with separate student and admin roles.
- Built a rule-based chatbot interface as a primary navigation layer, allowing students to query academic information conversationally.
- Integrated an ESP32-CAM module over Wi-Fi for live camera monitoring, combining web functionality, chatbot logic, and IoT hardware in one system.
- Centralized academic information into a single dashboard to reduce manual record-checking.

Staff–Student Forum | *2024*

- Designed and built a department communication platform using HTML, CSS, JavaScript, PHP, and MySQL, covering timetable management, staff availability, and event announcements.
- Owned the project end-to-end from database schema to UI, iterating the interface through 3 feedback rounds with faculty and students before final rollout.

EDUCATION

Integrated M.Sc. in Computer Science (5-Year Program) | *Nov 2021 – Jun 2027 (Expected)*
College of Engineering Guindy, Anna University, Chennai
